

TEAM HUB!

Delivering sustainability to the e-commerce supply chain

THE PROJECT

Team Hub! is a two-year project supported by the European Commission, Directorate-General for Employment, Social Affairs, and Inclusion, receiving funding under the call for proposals SOCPL-2021-IND-REL aimed at improving expertise in the field of industrial relations.

CONTEXT

Covid-19 pandemic and the boom of e-commerce: which consequences for the logistics sector?

Team Hub! brings together universities, research institutes and trade unions from nine EU countries to jointly address the complexities and challenges of **e-commerce supply chains**, especially with regard to **storage and delivery activities**, through a set of desk and field research, training, and networking activities and the development of policy recommendations.

The aim of Team Hub! is to analyse the implications of the **e-commerce boom**, following the **COVID-19** pandemic, and to equip **trade unions** and **logistics workers** with the knowledge and skills necessary to propose a sustainable reshaping of **business models** and **work organization** in the supply chain, also in view of the **digital revolution** and **environmental sustainability objectives**. A bold dissemination strategy has been designed to promote the active involvement of workers in key project initiatives.
